Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 18, 21, 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McLaughlin and Clements (each). McLaughlin and Clements disclose tethered ball hitting practice aids comprising a base, a frame extending upward, an arm extending parallel to the ground, and a flexible cord. A tethered ball is attached to the flexible cord. The attached golf ball may have a diameter of least 1.68 inches or more (USGA Golf Ball Specifications).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clements. Clements discloses the invention as shown above but fails to include the height of the

Art Unit: 3711

frame. It is obvious the height of the frame could be modified to fall between 1 ½ and 5 feet to allow accommodate users with different heights.

5. Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Clements or McLaughlin in view of Miles. Clements and McLaughlin disclose the invention but fail to show the ball connected to the base. However, Miles teaches a ball connected at opposite ends by a flexible cord. One skilled in the art would have attached the ball with an additional cord in order to restrain the ball from movement during the swing.

Allowable Subject Matter

6. Claims 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments filed 3-4-02 have been fully considered but they are not persuasive. Applicant argues the standard golf ball maximum does not exceed 1.72 inches. As stated above, the golf ball shown in the McLaughlin patent would encompass the limitation since the minimum diameter of a golf ball is 1.68 inches. Furthermore, there is no maximum limit on the diameter of a golf ball. Applicant claims an object at least the size of a softball and the prior art clearly

Art Unit: 3711

shows a golf ball, which has a minimum standard of 1.68 inches and no maximum according to the USGA.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
